

ABOUT US

VISION

To be recognized as the predominant strategic solutions assimilator within the security industry.

MISSION

To go beyond our customers expectations with ground-breaking and dependable security systems that provides a practical, cost effective and smart solution to the enforcement industry.

OBJECTIVES

Our management objective caters to the following groups:

- **CUSTOMERS** Many companies say that customer service is their number one priority, but we truly mean it. Your imminent and forthcoming needs are the basis for all we do. The choices of products and services that we offer are geared entirely towards the needs of our clients. Technical United's entire structure is founded by this principle and devotes all of its resources to achieve 100% customer satisfaction.

- **SHAREHOLDERS** Our goal is to maximize the investments of our shareholders by continuously evolving and developing innovative products.

- **PARTNERS** We work collaboratively with our partners to ensure that their objectives fall in line with the expectations of our clients and shareholders. Hence, we pay special attention to the role that our partners play in delivering value. Utilizing an outsourcing business model, TU keeps our core business where it belongs; in our hands.

- **COMMUNITY** As we grow, our company chooses high quality people to work with right within our own community. Through job offerings and specialized training, we hope to bring additional value to the communities as we continue to expand our worldwide presence.

-

THE WORLD It is our commitment to preserve the environment and

handle our work as safely as possible in our country and in the communities for which we operate. This is not a responsibility we take lightly, therefore we feel privileged to pass on our knowledge of new technologies and resources to the people.
